

Clinical Chemistry

Indiko system menu extended with new Sentinel Diagnostics tests

We are thrilled to announce our exclusive partnership with Sentinel Diagnostics, bringing a significant advancement to our Thermo Scientific™ Indiko™ system. This collaboration introduces 16 new reagents addressing a critical need in our offerings.

The partnership with Sentinel Diagnostics will enable the Indiko system to explore new indication areas, presenting a significant opportunity for Indiko analyzer users. Thermo Fisher Scientific is the exclusive distributor of these selected Sentinel Diagnostics high-quality reagents for Indiko analyzers.

Launch timetable

The launch of the 16 new reagents will happen according to product availability and subject to registration in each country. For more information, please contact your Thermo Fisher Scientific representative.

What our partnership brings to you:

- **Extended menu.** Assays from Sentinel Diagnostics will substantially expand the Indiko analyzer menu, providing a more comprehensive clinical chemistry reagent portfolio, including the FOB Gold NG Wide for gastrointestinal screening.
- **Validated kits.** The assays have ready-to-use system applications and they are fully validated for the Indiko analyzers, ensuring quick, accurate, and reliable results you can trust.

Join us as we lead the way in advancing healthcare and improving patient outcomes with this groundbreaking collaboration.

Complemented Indiko system reagent panels at a glance

New Sentinel Diagnostics reagents; availability dependent on registrations in each country

Experience the benefits of our Indiko comprehensive solution:

- **Optimizing laboratory efficiency.** Full Indiko reagent menu ensures efficient, consistent, and reliable results for labs of any size.
- **Easy-to-use.** Multiple automated testing features reduce the risk of errors and support you in maintaining the highest quality standards in your lab.
- **Robust and reliable.** A low-maintenance instrument that maximizes your lab's analysis time.
