

October, 2009.

EC-declaration of conformity

LABEX REAGENS AB hereby declares that the company fulfils its obligations according to the directive 98/79/EC.

Technical documentation of all reagents and blood controls is available.

The manufacturing process follows the principles of quality assurance – ISO 9001:2000.

This quality assurance system also includes a vigilance system for systematic handling of experience of the reagents and controls after production.

The company, reagents and controls are registered to the Swedish authorities and the reagents are CE-marked.

LABEX REAGENS AB
